

November 3rd, 2023

Pro Engineering Consulting
2043 Alga Road
Carlsbad, CA 92009

Congratulations!

We are thrilled to inform you that your business, Pro Engineering Consulting, has achieved the [Carlsbad Green Business Program](#) Level TIER 2 Certification! We sincerely appreciate you taking a leadership role in our community and thank you for adopting all the measures to become a recognized green business. We are proud to count you among our new members of the [California Green Business Network](#). This certification is valid for (4) four years, until November 2027.

Some of the meaningful measures that you have put into place in order to become certified:

- Purchasing greener products
- Switching to paper products with recycled content
- Subscribing to websites to reduce junk mail
- Adding a composting program
- Setting irrigation system/turf to reduce water use
- Setting computer to print 2-sided as default

The Carlsbad City Council recognizes our new green businesses once a year, where you will receive an official proclamation signed by the Mayor. You will receive more information as we get closer to the date.

We encourage you to continue this journey of running a sustainable business by keeping an environmental lens on everything you do. If you need any guidance during the duration of your certification, please do not hesitate to contact us for assistance.

Again, sincere congratulations on your successes and Carlsbad Green Business Program Certification!

Sustainably,

The Carlsbad Green Business Program Team
